There are many Incidental Benefits in having a Checking Account in

THIS STRONG NATIONAL BANK

It enables you to keep track of your money matters in a systematic way. The entries in your bank book show how much money you have received, and the stubs of your check book and also the cancelled checks returned by the Bank show how much you have paid out and where the money went. In this way this Bank virtually keeps your books for you, and, we may add, few individuals ever succeed in keeping accurate account of their finances in any other way.

The cancelled checks, returned by the Bank each month, are legal receipts for your payments. If you pay in cash you will often fail to get receipts but paying by check automatically gives you an indisputable receipt for every payment and in a form very easy to file for future reference. You also avoid asking for a receipt, which is sometimes, though wrongfully, looked upon as evidence of personal suspicion.

In view of all these advantages can you ignore the need of a bank account for yourself?

Nothing definite has as yet been decided as to the post-office at Sandy Creek. As is known the present postmaster, L. S. Ingalls, tendered his resignation to take effect as soon as the necessary arrangements can be made. No other arrangements have been made

and Mr. Ingalls is still holding down the job as a matter of accommodation. His present intention, however, is not to continue in the office, although of course there is the possibility that he may be prevailed upon to continue rather than to have the Creek lose the office.

Ormand S. Spring and Harry Burbank have gone to Jackson, N. H., to arrange for the building of a large cottage in the spring.

Llewellyn A. Wadsworth went to South Hiram, to attend the funeral of his friend, Jonas B. Spring. He was heard to remark that in a life of more than seventy-five years and an intimate acquaintance of sixty-five years with Deacon Spring, he had never known a better man. He was born in Saco in December, 1826, came to South Hiram in 1835 with his parents, Capt. Seth and Hannah Spring. He was a diligent farmer until late in life, ill health forcing him to cease. He experienced religion in 1864, joined the Baptist church in Portland in 1867, was ordained a deacon in 1889. His wife died about 1896. His life was a vivid, forceful example of a Christian and peace-maker, and his daily life and his genial presence anywhere was an inspiration and a benediction. His death resulted from heart disease and paralysis. He was a descendant of Henry and Ellisor Spring, who came in 1635 from England to Watertown, Mass.

Society Won't Tolerate Catarrh.

Get Rid of It. There is one sure way to banish catarrh and along with it the disgusting symptoms such as hawking, snuffing and spitting.

Breathe HYOMEI, that's all you've got to do. Breathe it a few minutes a few times a day. Breathe it deep into the lungs and see how quickly the sore, red, inflamed membrane will clear up and inflammation vanish.

HYOMEI is pure antiseptic air, it does not contain morphine, cocaine or other habit forming drugs. It is made from Australian eucalyptus and other antiseptics, and it is rigidly guaranteed for catarrh, asthma, croup, bronchitis, coughs and colds. Complete outfit (inhaler and bottle) \$1.00. Separate bottles, if afterwards needed, 50 cents at Noyes Drug Store and druggists everywhere.

Misfit Presents.

The Christmas time has come once more With all its joy and cheer; On every side, in every home, The Christmas gifts appear; From bulging stockings everywhere The prizes are pulled out; Ah, listen to the sounds of joy, The jubilating shout.

Behold the festive bachelor, Enshrouded in his bloom; He gets a present with the rest, He finds it in his room— Alas, unhappy man! Some friend has sent the lonely wretch A brand new frying pan.

The minister, so dignified, He gets some poker chips; He gets a little fur From which to take some naps, The tempt'rance man, he gets a case Of extra dry champagne; The legless wonder gets some shoes, The earnest man a cane.

The babes in arms get sleds and skates, The boys get pretty dolls, The little girls get boots and tools And whips and rubber balls; The deaf man gets a graphophone, The blind man gets some spoken, And if a hobo gets a gift It is a book of checks.

The maiden lady, all alone, With none to share her joys, Gets lots and lots of foolish things, Like jumping jacks and toys; The barkeep gets a Bible and Some curling irons, too; The tempter gets some knitted mats, The tightwad gets some glue.

The college man with bulging brows Finds primers in his socks, The aged fellow in the dumps Gets painted building blocks; The pretty maiden in her teens, Who dotes on endless loves, Will find within her stocking tucked Some eight-ounce boxing gloves.

The man who cannot read, gets books, And he who does not smoke Will get a lot of fine cigars— And that's no idle joke. The husband gets a comb and brush, The sinner gets a drum— And this is why at Christmas time Some people look so grim.

GILEAD.

FYEBURG.

A Stretch of Bad Road.
Probably the worst place of road in the State is a half mile stretch of road between Fryeburg and Bridgton, along the main line of travel between Poland Springs and the White Mountains. The municipal officers of the town of Fryeburg are desirous of doing whatever lies within their means to better the condition of this bad piece of road and for that reason they asked State Highway Commissioner Hardison to come to Fryeburg, inspect the road and advise them as to what could be done for its improvement.
Commissioner Hardison visited the road in question last week, and thoroughly investigated conditions there. He found that the road is flooded in times of extreme high water in the Sacandaga and that in extreme high water it is impassable for a few days. The water cannot be prevented from overflowing the road at times by any reasonable expenditure of money for its betterment. In extreme high water the road is covered three feet deep and the swift current prevails. When the waters subside, the road is left muddy and in bad shape generally.
Commissioner Hardison recommends the use of stone and a surfacing material, giving the road as perfect a grade as possible, so that when the water subsides it will drain thoroughly and quickly. The drainage problem can easily be worked out in this way, as the water falls into depressions and ravines that extend across the road.
"If this that the road can be made safe," said Mr. Hardison, "as these extreme freshet conditions only prevail in the early spring and late in the fall." The amount of travel that passes over this road is shown from the fact that over 5000 automobiles went across this stretch of road during the past season.

Torn by a Bulldog.

Elmer Bowker, son of James Bowker, the postmaster at Bryant Pond, was badly lacerated by a savage bulldog owned by Mark Allen, Friday. Both hands and wrists were torn, eighteen bites in all were inflicted, eleven on the right hand, seven on the left. Some entirely punctured the hands.

Young Bowker, who is one of the most prominent and popular members of the Junior class at Colby, was spending Thanksgiving with the family. In going to the postoffice to help his father with the mail, he had to pass Allen's store. The dog, Prince, a large watch dog, sprang at him and seized his hand. Bowker choked the dog and flung him into the cellar of the hotel that was burned some years ago. The dog returned to the attack.

Bowker's hands were dressed by a physician. The wounds are rapidly healing. Monday he returned to college.

The Dairyman in Norway

Continued from page 1.

He spoke at some length on getting the cows in a condition nearest perfect health which enables them to resist disease. Cleanliness, pure fresh air and sunlight are considered the most essential for the dairy cow. Among other topics taken up under this subject were the general care and feeding of the dairy cow, grooming, going off feed, etc.

He took up the common diseases as swellings of the udder, milk fever and tuberculosis and gave some very instructive information concerning them.

R. T. Patten of Skowhegan gave a short illustrative address, "Debit and Credit of a Dairy Herd." He showed the actual receipts and disbursements for a herd of 15 cows for November, 1911.

They represented but one month out of 12. They are chiefly designed to show certain items of income and expenditure that are usually disregarded in accounts with the dairy herd.

A 10 per cent. annual charge is counted upon to replace each animal once in ten years. A cow does not have ten years of productive life, she averages, but her best value at the end of her dairy life will probably more than make good this deficit.

Insurance is reckoned at \$2.50 per thousand per year; taxes at 2 per cent. on the usually assessed valuation.

Ten per cent. per year on one-third of the value of the farmhouse is charged to the dairy herd. The other two-thirds are assumed to be chargeable to other departments of farm operations.

Stable is taken at 10 per cent. or \$100; it being assumed that a stable for 20 cows could be built and equipped for \$2000. Bedding is counted at the value of one ton of cut straw a year for each cow.

Two-thirds of the cost of filling the ice house with the same fraction for depreciation of the buildings, is charged to the dairy herd, the other third to the farmhouse.

It will be noted that the hard milker has to answer for the extra time it takes to make her yield her product.

The same herd, under a system where every item is accounted for, may be noted under the more usual method of charging simply what is feed and crediting only the milk production. The latter method, of course, makes very much the better showing.

W. K. Hamlin, president of the Maine Creamerymen's Association, spoke on Dairy and Creamery Inspection—Its Value to the Farmer and the State.

Mr. Hamlin expressed his opinion regarding the testing of the herds and the inspection of the creamery, the standard which should be maintained by the creamery, but not to the highest standard at once but gradually raise the standard from time to time.

An interesting open discussion followed and was taken part in by a number of creamery men, including Johnson, Edwards, Moody and Davis.

The dining room of the Grange Hall was turned into an exhibition hall where a variety of silos, cream separators, butter, milk and cream etc., were shown.

H. A. Flood of Rutland, Vt., represented the Creamery Package Mfg. Co. of Rutland, Vt., and has an exhibit of small silos something like two feet high.

E. E. Shephardson of Albany, N.Y., exhibited a quantity of creamery apparatus and supplies.

N. D. Haskell of Mechanic Falls gave a talk on the Unimolilo Silo exhibited a silo 3 ft. by 6 ft. showing the door front with continuous ladder attachment. Mr. Haskell has the agency throughout Maine and New Hampshire.

E. C. Brett of the Vermont Airm Machine Co. of Bellows Falls, Vt., demonstrated the workings of three styles of cream separators. One in particular was especially attractive. It was made with glass in the sides and electric lights on the interior to illustrate the construction. Two of the separators were run by electricity and the other by hand.

G. D. Thorndike, state agent for the automatic cream separator, demonstrated these separators with two machines, one automatic the other hand machine on the old way and the new way.

P. A. Crawford of New Bedford, Mass., was in attendance in the interests of the New England Farm Exchange which is issuing preferred stock. Mr. Crawford has just completed a trip through Hebron and Minot and secured nearly \$1000 among some of the best farmers in the vicinity.

James W. Carver of Danville was present and demonstrated the Ellis kerosene engine. This engine is a dandy little machine. It is of the latest improved type, burning kerosene and other cheap fuels, it can be easily adapted to all kinds of work, the speed regulated from extremely slow to 1000 revolutions per minute by simply adjusting a screw while the engine is running, it is self oiling and has many other good qualities. Mr. Carver met a number of Norway friends who were very interested in this machine. He was also looking for a local agent.

E. E. Witt the local agent for the International Harvester Machine Co., was on hand with two cream separators, one of which was run by a small engine, the other was run by hand. He is also local agent for engines, saw rigs, engine cutters, manure spreaders, corn harvesters and tillage implements of all kinds.

In the lower hall were also displayed an exhibit of butter, cheese, milk and cream. The cheese and butter was very neatly arranged in show cases in the center of the hall and the cream and milk was at the end of the hall on a table with a creamery covered with crepe paper. Mr. and Mrs. Fred Cummings were in charge of arrangements.

One cheese, especially to local people, was of special interest. It was made by Mrs. J. H. Miller of Norway, who is 64 years of age, and was presented to F. H. Cummings. Mrs. Miller has presented Mr. Cummings with her cheese for a great many years.

USWOCA MILLS

We own and offer
Lawrence, Mass.

7 per cent. Sinking Fund Preferred Stock
Price \$110 per Share, Netting \$6.36 per hundred, Tax Free in Maine.

In our judgment this is the highest grade and most secure New England Manufacturing Stock, netting a good return and tax free, to be bought in the market today.

As there is no underlying mortgage, this stock is a first lien on a new and modern equipped textile plant, located at Lawrence, Mass., operated by water power and costing over \$1,000,000.00.

Dividends cannot be reduced and are GUARANTEED through a long term lease to the United States Worsted Company, a corporation with over \$3,000,000.00 of assets, and whose net earnings for the last fiscal year were over six (6) times the dividends on Uswoca Preferred.

Through the action of the Sinking Fund, a ready market will at all times be available for the resale of this stock and provides for the redemption of the whole issue at the end of TWENTY YEARS, at One Hundred and Fifteen (115) Dollars per share.

The Old Colony Trust Company of Boston act as trustee for the protection of the Uswoca Mills Preferred stockholders.

The dividends on the "Uswoca" Preferred Stock are disbursed by the Trustees, The Old Colony Trust Company, quarterly, the 15th of January, April, July and October.

"Stock purchased now carries this full quarter's dividend, due January 1st, payable to the 'Uswoca' Preferred Stockholders, by the Trustees, The Old Colony Trust Company, of Boston, on January 15th."

We strongly recommend this security and believe it to be an especially desirable purchase for small investors, trustees of estates and others desiring a secure investment with a definite fixed return, tax free in MAINE.

Write today for circular on Uswoca Preferred and list of our offerings of high-grade non-taxable MAINE investments.

Did You Miss Us Last Week

Well, we were so busy with Thanksgiving trade that we forgot the paper went to press a day earlier.

This week we have been just as busy unpacking the best line of Holiday goods we have ever owned. We might fill this column with list of descriptions and still not convey to your mind what an excellent showing we have.

We want you to see it before the assortments are broken, it is decidedly to your advantage to come early and this is to remind you that it is YOUR MOVE.

WEST FRYEBURG.

Maine at Washington.
Mrs. Etta H. Osgood's many friends will be interested to know she is pleasantly located for the winter in Seattle, Wash., at the home of Mr. and Mrs. Geo. Harris Haley, the latter, Mrs. Osgood's brother, well known former residents of West Fryeburg.

Mr. and Mrs. Haley are enjoying their new home, now in the finishing stage, immensely and seem to have acquired the enthusiasm that arrests and holds those who drop into the enchantment of the Pacific regions.

Seattle has a New England club with a membership of 800 and they call Washington, "The seventh New England State." Leonard F. Dearborn, president of the club, estimates that there are 16,000 former residents of New England in Seattle. Other estimates claim that Mr. Dearborn's estimate is too low and that a conservative guess would place the number at nearer 25,000.

This is from a clipping from a Seattle newspaper of recent date and may interest Maine people.

Guy Eastman is adding a commodious house to his already fine block of buildings.

Mrs. S. W. Hill of Whitefield, N. H., is the guest of her daughter, Mrs. J. T. Boutwell.

The West Fryeburg cemetery has been improved by the erection of a neat wire fence around the sides.

During the summer vacation an artesian well was driven in the meadow opposite the schoolhouse in this district for the use of the pupils. Mr. Coleman, superintendent of the work and the school, at present the largest for many years, is said to be one of the largest in town, is supplied with good water, though some families in the vicinity are suffering from long continued drought.

Dean Andrews, for some years past a resident of Peabody, Mass., died there last week and was brought Saturday, Dec. 2, for burial in the Henry Andrews lot adjoining the local cemetery. Among residents of Fryeburg and environs Mr. Andrews was well known and highly esteemed. For several years he resided in Sweden and served as postmaster but a few years ago retired, removing to Peabody, Mass. He was a frequent summer guest of relatives in Lovell, Sweden and Fryeburg and was anticipating removal to a permanent home in Fryeburg village in the fall. During the greater part of the present year Mr. Andrews' health had been failing and as was feared his advanced age operated against recovery. He made his home with his sister, Calista Andrews of Peabody.

Mrs. E. F. C. Green has returned from her trip to Massachusetts.

Geo. Grover has been quite sick with tonsillitis, requiring a trained nurse.

H. E. Husey and daughter, Dorothy, took dinner the 30th at J. K. French's.

Howard Knightly expects his wife and one of the boys home from the hospital before many days.

George Abbott and son are threshing oats with gasoline engine for the Messrs. French in their "Coz barn."

Clarence Austin's father, Greenville Austin, died a few weeks ago in a hospital in Augusta. He was a soldier in the Civil war.

Fred Hersey and family were at Al. Farnham's on Thursday and Frank Cox and wife, also Mr. Harwood and family partook of stuffed goose and other delicacies at O. N. Cox's.

Mrs. Mel. Morey had the misfortune to fall and break her leg last week and as she has a family of five small children it makes it very hard all round. They live on the Brackett place.

O. W. H. Jenkins and wife spent their Thanksgiving at their daughter's, Mrs. E. E. Twitchell's, in Oxford. Mr. and Mrs. E. A. Cox were at Claude Haskell's that day, and Guy Curtis, wife and two little nieces spent the day at A. A. Herick's. Mark Richardson and family were at his son's, Charles Richardson's.

Mrs. Woodbury Russell and family, Mrs. Chas. Seavey and family to help eat, Edgar Hobbs and sister, May, also Mr. and Mrs. Simon Richardson were at Wilbur Rogers', Thanksgiving day.

SOUTH WOODSTOCK.

Mrs. Sarah Proctor is sick and under the doctor's care.

There are no new cases of diphtheria and the old cases are doing well.

Fred Farrington was the guest of his brother, Perley Farrington, recently.

Several from this way attended Pomona Grange at South Paris, Tuesday.

Mrs. George Davis and children spent Sunday with her parents, G. N. Felt and wife.

Nelson Mixer and wife of South Paris spent Thanksgiving with Mr. and Mrs. Elwin Russell.

Caleb Morrill and wife took dinner Thanksgiving day with Geo. Pulsifer and wife in Sumner.

School in the Union District commences next Monday. Bessie Cole comes back for the winter term.

Clifford Buck went to the Hospital at Lewiston, Friday. He was operated on Saturday for appendicitis.

Mr. and Mrs. Albert Felt entertained Mr. and Mrs. A. S. Brooks and family and Amos Barnett and family at dinner Thanksgiving day.

Mrs. Elvess Denning of West Paris spent Thanksgiving with her niece, Mrs. E. B. Davis. Mr. and Mrs. F. E. Davis and Ellie G. W. Davis took dinner at W. S. Davis'. Leroy Titus and wife were guests of A. M. Andrews and family Thanksgiving.

Footwear For Christmas Presents

It has become the custom in the last few years to make useful presents and our holiday trade has steadily increased. This year we are prepared for the largest business we have ever had. Emerson Tuttle has gone to his winter home at North Buckfield.

Mrs. J. B. Drake has gone to Antrim, N. H., to spend the winter with her sister, Mrs. Josephine Stewart.

Grant Boyal and H. D. Tuttle have sold the apple and they hauled them to the station Monday morning.

The guests at S. O. Colby's at Thanksgiving were, Mr. and Mrs. Andrew Jenkins, James Oswald, W. W. Maxim and Mrs. Evelyn Richards. When all were seated at the table a photograph was taken. After dinner they all assembled in the parlor and W. W. Maxim played a few selections on the piano then they went on the lawn and were all photographed in a half circle.

Kidney Troubles Attack Norway Men and Women, Old and Young.

Kidney ills seize young and old. Come quickly with little warning. Children suffer in their early years. Can't control the kidney secretions. Girls are languid, nervous, suffer pain. Women worry, can't do daily work. Men have lame and aching backs. The cure for man, woman or child is to cure the cause—the kidneys. Doan's Kidney Pills are for sick kidneys—

The following testimony proves their worth—

Mrs. C. L. Hersey, Peaks Island, Me., says: "I can recommend Doan's Kidney Pills highly to anyone suffering from disordered kidneys and lame back. This was my trouble for three years, and although I tried everything I heard of that I thought would do me good, I was unable to get relief. I heard Doan's Kidney Pills spoken of by my neighbors, and I finally began using them. The results both surprised and delighted me. I improved at once and in six weeks every symptom of my trouble had disappeared."

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, New York sole agents for the United States.

Postal Savings Bonds.

Some little time ago the Norway Post-office was designated as a postal savings bank and has done a considerable business along this branch.

On the first day of January, 1912, the depositors may exchange the whole or a part of their deposits for United States registered or coupon bonds in denominations of \$20, \$100 and \$500, bearing interest at the rate of 2 1/2 per cent. per annum, payable semi-annually, and redeemable at the pleasure of the United States after one year from the date of issue, both principal and interest payable 20 years from that date in United States gold coin.

The Postal Savings bonds are exempt from all taxes or duties of the United States as well as from taxation in any form by or under State, municipal or local authority.

The applications for the conversion of deposits into bonds on January 1, 1912, must be received before Dec. 15, by the postmaster at the office where the certificates were issued. The postmaster furnishes an application form and the depositor indorses and surrenders with his application postal savings certificates covering the amount of the bonds desired, for which the postmaster gives a receipt.

The Postmaster upon receipt of the bonds notifies the depositor and delivers them upon presentation of the receipt for the certificates surrendered. There is no limitation to the amount of available Postal Savings bonds which may be secured by a depositor.

The exchange is considered as taking effect on January 1st, and a depositor who has applied to convert the bonds or a part of the maximum balance of \$500, may deposit an additional amount in January though the bonds may not yet have been delivered. These bonds can be procured only by the conversion of Postal Savings deposits and will not be issued to persons who are not depositors. They may be sold or assigned to any person, however, by a holder, and when a registered bond is assigned, a new bond will be issued to the name of the owner.

Coupon bonds are preferable for a depositor who intends to hold them only a short time. These bonds are payable to bearer and the title will pass by delivery without indorsement. Interest on coupon bonds are collected by means of interest coupons which are detached by the holder as they become due.

Registered bonds are preferable to persons intending to hold them for a considerable period, and differ from coupon bonds in that they have inscribed upon their face the names of the persons to whom they are issued. They are payable only to the persons to whom issued or their assigns, and the ownership of registered bonds can be transferred by assignment in proper form. A ledger account is opened in the Treasury Department at Washington with each holder of one or more registered bonds, and when they are assigned they shall be transmitted to the owner by the Secretary of the Treasury (Division of Loans and Currency) for transfer on the books of the Department.

Registered bonds cannot be exchanged for coupon bonds, but coupon bonds may be converted into registered bonds without charge.

Interest on registered bonds is paid by check drawn at the Treasury Department in favor of the registered holder and are sent by mail and the holder should notify the Secretary of the Treasury of any change in his postoffice address, 15 days before interest falls due.

Checks for interest on registered bonds as well as interest coupons detached from coupon bonds are payable on presentation at the United States Treasury or at the office of any assistant treasurer of the United States.

Interest checks and coupons covering interest on Postal Savings bonds will be cashed by Postmasters under the same conditions as other Government papers. Payment on registered bonds that have been lost or stolen may be stopped by notifying the Secretary of Treasury (Division of Loans and Currency) at Washington. If coupon bonds are lost, the Government does not undertake to protect the owner against the wrongful holder but recognizes bearer only, when bonds, either registered or coupon, have been destroyed wholly or in part, a claim may be filed to the Secretary of Treasury under certain prescribed conditions for their replacement. Such claims will not be allowed if coupons changed have been detached from coupon bonds.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

The Famous Rayo Lamp

The best part of the day is the evening, when the whole family is gathered together around the lamp.

The old days of the smoky fireplace and flickering candle are gone forever. In their place have come the convenient oil stove and the indispensable Rayo Lamp.

There are to-day, in the United States alone, more than 3,000,000 of these Rayo lamps, giving their clear, white light to more than 3,000,000 homes.

Other lamps cost more, but you cannot get a better light than the low-priced Rayo gives. It has become so popular we may almost call it "the official lamp of the American family."

The Rayo is made of solid brass, with handsome nickel finish—an ornament anywhere. Ask your dealer for a Rayo lamp; or write for descriptive circular to any agency of the
